

LITTLE WALTHAM SURGERY

IMPROVEMENTS

Planning consent has been granted for extension and refurbishment of the Surgery which will provide:

- **Additional consulting rooms**
- **Enlarged and improved waiting room**
- **An independent pharmacy**
- **Fully refurbished premises**

The work is extensive and will mean temporary relocation of clinics to Great Notley Surgery where we will be running clinics throughout the day to meet the increased demand for appointments. A dispensing service will continue at Little Waltham Surgery. We hope most patients will be able to travel to Great Notley to see a GP or nurse, however, if you are without transport, please speak to a receptionist and we will make alternative arrangements for your care. We appreciate travel to Notley may cause inconvenience but we hope that the resulting improvements at Little Waltham will compensate. The work at Little Waltham will commence on 4th May and is scheduled for completion in the Autumn. You can still contact the Surgery on the usual number (calls will be diverted) or you can call Notley directly:

Reception: 01376 341411

Dispensary: 01376 341344

If you have any concerns about your care during this time please speak to Julie Price, Senior Practice Manager or Bev Lampitt, Associate Practice Manager.
